

PANELPIEDRA KRETTA BURNIND

A3Plus Film Printer

Your film ready in minutes

With the A3Plus RIGA Printer you can easily produce your own films in minutes, reducing production and shipping costs.

The films are perfect in Screen Printing (Frame Production)
in Pad Printing (Photopolymer Clichè)

Offset Printing (Photopolymer Plate) and for the production of Stamps.

The high resolution of the Riga A3Plus printer (5760 Dpi)
allows super precise details: 100% dithering, shading and blacks.

PANELPIEDRA KRETTA BURNIND

Multi-Black ink

The Multi-Black ink supply system (cartridges are fed with black ink only) with external tank to facilitate its filling. With Riga A3Plus there is no need to change cartridges.

The printer uses a studied water ink for printing films Super black, the art work film can be used immediately.

Our Transparent Films allow rapid drying of ink and a high resistance, the films can be reused. Graphics can be processed with any graphics program: Illustrator, Photoshop, Corel Draw. SoftWare Rip for automatic printing management, for both Mac and Windows. Starting up the printer is extremely simple remote installation in less than 10 min.
